

see below for a note from
Annabell's Grandma.

4.26.24

Dear Dori + Leora,

I first ~~want~~ to acknowledge what an amazing Program the Washington Companies have provided to this community. I think about all the employees there that are taking It Forward to hundreds of people here in Missoula.

I took these 2 ^{gift} cards down to Salt Lake City and got them into the hands of Annabell's mom - Kailea. She is so grateful! She travels back + forth from Oden where she is staying with her brother in law while Annabell is receiving chemo - and now, starting April 28th - a 30 day radiation to the brain. She was so grateful because she has to fill up her car every other day or so to get to the hospital there. As you can imagine, the bills add up quickly. She has had some amazing financial support from some foundations that provide specifically for families going through cancer treatment for their child.

Kailea + Annabell will be there in Oden/SLC until the beginning of June when the radiation treatments will be done. Annabell is doing very well. She is so smiley and active. The doctors are pleased with her progress. The cancer she has does not give her a very good prognosis - but we have a huge prayer team - and we know God is Good - all the time!!!

This picture of Annabell was taken for her 1st birthday. She was born October 6th. She got diagnosed with brain cancer at 13 1/2 months old. Right at Thanksgiving she has spent most of the following months in Primary Children's Hospital. They have been wonderful. The people there are angels! You both are angels too! God sent provision through your hands!

May God Bless You Both
and Washington Companies,
Meg Lumberger (gramma)
😊
